

Healthy Conditions. Happy Chickens.

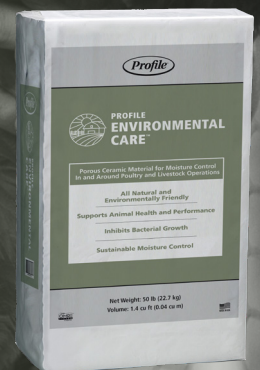

Profile Environmental Care™

HOW DO YOU MAKE A CHICKEN HAPPY? MAKE SURE YOU ARE LAYING DOWN THE FOUNDATION OF A GOOD ENVIRONMENT AND THEY WILL THRIVE. PROTECT YOUR BACKYARD FLOCKS FROM BACTERIA, DISEASE, AND REDUCE UNPLEASANT SMELLS TO ENSURE A HEALTHY PLAY SPACE FOR YOU AND YOUR CHICKENS TO LIVE.

Environmental Care acts naturally to reduce unpleasant odor, support immunology, and reduce the risk of bacterial growth, resulting in increased animal welfare, and overall health.

ENVIRONMENTAL CARE PRODUCT HELPS PROTECT AGAINST

- Salmonella
- E. Coli
- Dermatitis
- Foot Pad Lesions
- Ammonia Smell

See Reverse Side For Complete Product Details And Application Instructions

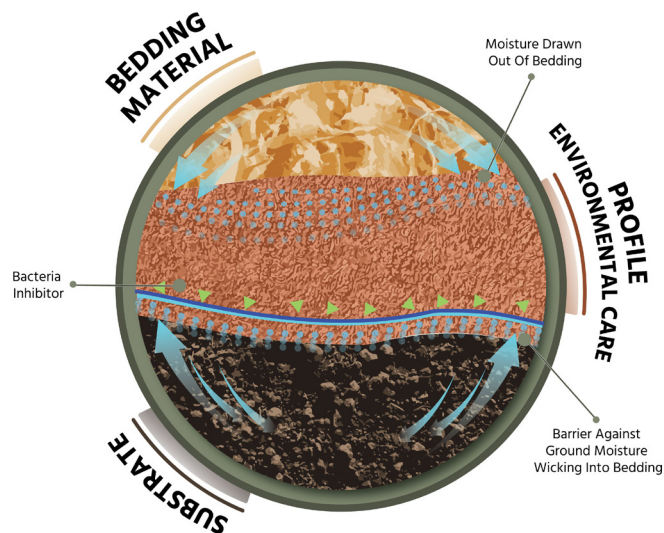

Profile Environmental Care™

Benefits

- Supports Animal Health
- All Natural and Environmentally Friendly

How It Works

Directions for Use & Applications Rates

For New Nesting Areas

For best results apply Environmental Care evenly to the bedding area at a rate of one 50-lb. bag per 144 square feet prior to deployment of new bedding material. Apply additional as needed.

For Existing Nesting Areas

For best results apply Environmental Care evenly to the bedding area at a rate of one 50-lb. bag per 144 square feet to existing bedding. In conditions where excessive moisture is present, one 50-lb. bag per 50 square feet is recommended.
